The outbreak and spread of Covid-19 (Coronavirus)

How we are protecting our guest and staff at [The Cliff Hotel](#).

Negril, Jamaica [March 10, 2020] - In light of recent developments across the world with the spread of Coronavirus we wanted to take this opportunity to inform you that we at The Cliff take health and hygiene very seriously and are taking appropriate measures to ensure that our property is a safe place for you and your family.

Although we always do our part in ensuring cleanliness at the hotel, we are taking extra precautions through deep cleanings of rooms and public areas. The Cliff is an intimate property on 5 beautiful acres with just 33 rooms and suites, including 4 villas. Our attention is on keeping those spaces clean and disinfecting them throughout our guest stay with us and after each guest departs the hotel. This is our commitment to our guest, staff and to the global effort in stopping the spread of the virus.

If you have any concerns or questions as it relates to our property or your stay here, please feel free to reach out via phone or email to our team here in Negril. We'd be happy to speak with you. The Cliff looks forward to welcoming you soon and, whether this is your first time to the property or your fifth, we know you'll make memories that will last a lifetime.

About The Cliff Hotel

Understatedly chic while infused with Jamaican culture, The Cliff Hotel is a private enclave established upon a spectacular five-acre peninsula on the western-most point of Jamaica in Negril, offering breathtaking views of the tranquil Caribbean Sea and Negril Cliffs. The 33-room boutique property features a collection of suites, cottages and villas, including two stylish one-bedroom cottages, a magnificent four-bedroom villa and exquisite five-bedroom villa. Guest accommodations are all designed in a modern Caribbean palette of clean lines and dark wood minimalist furniture, contrasted with a color palette inspired by Jamaica's sand and sea.

The Cliff Hotel also boasts a natural saltwater pool nestled in the cliffs, the serene KiYara Spa, three bars, one conference room and Zest at The Cliff helmed by the celebrated Chef Cindy Hutson, her partner Delius Shirley and Chef de Cuisine Jonhoi Reid. A reinterpretation of the former Moon Dance Cliffs, The Cliff Hotel opened December 2015 following a rebrand and extensive renovation under the management of The Vagabond Group. The Cliff Hotel exudes warm Jamaican hospitality, quiet luxury and an inviting atmosphere for guests to immerse themselves in the diverse culture and heritage of Jamaica.
